Product Description

Customized Cordless Horizontal Removable Blinds For French Windows

Easy adjustment of the shading effect: The design of the blinds makes the shading become more freely adjustable, according to the changes in the angle of the blinds, while presenting different degrees of shading effect.

Easy maintenance: Each blade of the blinds is removable, so one or two of the blinds are broken and can be partially repaired. It saves the maintenance cost and prolongs its service life.

Less noise when pulling on or opening: Compared to cloth curtains, the noise made when the blinds are pulled is much less. It is also less disturbing to the quiet of the home or company.

Aesthetic simplicity: Blinds can be fully retracted or lowered by the control of the drawstring, and the size is one to one, which makes the window look simple and generous.

Good thermal insulation: now the blinds are basically made of materials with good thermal insulation properties, which can withstand some of the summer heat and winter cold, and play a role in the regulation of the temperature inside the rate.
